Central High School of Philadelphia
211th Graduating Class
50th Reunion Committee

Fifty years. It seemed like a long time when we looked at it from the eyes of high school students, but from our current perspective, it went by in almost a flash. We all look forward to this reunion to catch up, in person or in print, on where we have been, where we are, and what we want to do next. All of this will occur with the awareness of how the school, the faculty and of course our classmates influenced our lives. Enjoy the weekend, the memories, and the plans for the future.

The reunion committee has been centered in the Philadelphia area with input from classmates around the world. The group has enjoyed getting together for mini-reunions as the work was planned and accomplished. Everyone on the committee has pitched in and contributed to these efforts and deserves our thanks for their efforts. Special recognition goes to Steve Laver who initiated and coordinated the group, Art Sklar who led the efforts on record keeping and communications, and Sylvan Gross who headed the group that produced the year book.

The committee has already started to talk about our next reunion. So, if you have interest in helping with that let us know, and of course, keep in touch.

Hi Syl,

After I completed the bio and emailed my picture to you, I began thinking about the four years I had spent at Central High School, the friends I had made and the influence Central High had on my later life. I remembered something that had happened about 15-years ago.

I was hosting a corporate function for clients and health care providers in California. A dentist approached me and mentioned that my accent sounded like I was from Philadelphia. When I smiled and nodded my head, he asked me what high school I had gone to. Throughout my life when someone from "Philly" asked me about my high school, I knew it had to be a fellow Central High graduate. Without a second thought and without identifying the school, I said 211 and he responded 206. It has always been interesting to me that Central High alumni place so much importance on the role their high school education had on the rest of their lives.

After a series of "Did you knows?" about students that attended Central during the years between the 206 and the 211; we got to talking about the people who did span the years between our two classes, the teachers that helped to mold our lives and personalities giving us the foundation for success in the future. That brings me to the point of sending you this second email.

I left Philadelphia about a year after high school graduation and only was able to come back for an occasional weekend visit with my mother and brother. When I finally moved back in the late eighties, it was too late for me to go back to *Ogontz and Olney* to thank those individuals that had done so much for me. I imagine that during the festivities there will be a number of speeches, remembrances and toasts. I hope that there will be an opportunity for all of you to hold your glasses up high and toast the teachers who had such great influence on our lives. Although they received only modest incomes and the promise of a moderate pension, their satisfaction had to come from knowing that they had given us the foundation, tools and intellectual curiosity to achieve future success.

Unfortunately, I will not be able to attend the 50th reunion and celebrate with all of you. However, I will raise a glass that weekend in toast to the Proud 211 and all the individuals that had such a profound influence on me.

LARRY S. ABRAMS

Currently, I am a retired resident of Flemington, NJ (since 1974), living with my wife, Bebi, and two Siamese cats. Daughter, Aruna, is a musician living in LA. I graduated from PCPS with a BS in Pharmacy, then on to a PhD in Pharmacology from UCSF, along with the wild times of the '60's at SF/Berkeley. Met my wife at Berkeley, married in 1966 then moved to So. Calif for my post-doc at UC Irvine and Bebi's PhD work. Moved to NJ in 1972, completed a residency at NYU, then on to a 30 year career in clinical pharmacology with Ortho-McNeil, while my wife worked in clinical research at other companies. I am active in local politics, volunteering, and enjoy music, sports, and life.

MIKE APPLEBAUM

I am enjoying semi-retirement after a career in accounting and financial planning. I moved to Alabama 30 years ago, with one of the large, international CPA firms, and expect to be here for the duration. Much of my time is now spent with our grandchildren. I never fully appreciated how important Central was to me when I was a student, but now, 50 years later, my attendance there is a source of great pride. I think the rigorous academic environment, as well the experience of rubbing elbows with the best and the brightest, gave me the essential tools I needed to compete in the world. To this day, I have only one diploma on display in my office — the one from Central. My university diploma never made it up on any of my walls.

VIVIAN PINNOCK BAILEY III

Pete, whose ambition is to be a veterinarian, has certainly shown those qualities which will not only contribute to his chosen profession, but which will also enrich his later life. Aside from his humane interest in animals, Pete finds his calling in sports and has participated in many of the athletic activities sponsored by the school. Pete will always be remembered for his quiet manner and willingness to help out. Cross Country Team; Track Team; Intramural Football and Basketball; JAC; Entertainment Committee; Aeronautical Society.

STEVEN J. BARCUS

Steve ("Barcus is willin'") Barcus, identified with such school activities as sports and committees galore, has one of the most vivid personalities of the men of the 211. Steve, also known as "Barky" and "Lover," should go far in his chosen profession of medicine. We wonder, however, whether this objective was prompted in any way by Steve's participation on the J.V. fencing team.

J.V. Baseball; J.V. Fencing; S.A. Representative and Alternate; Associate Justice on Student Court; Chairman of Court Revision Committee; Senior Prom Committees; School Service Committee; Silver Key; Barnwell Honors; Banquet Committee.

MURRAY BATT

Murray's long-suffering, venerable Hudson has become a permanent feature of the school's Ogontz Avenue landscape. My venerable Hudson long ago fell apart, but now our Prius is a permanent feature of the N. California landscape, where my wife and I relocated 40 months ago. Previously, for 30 years, we lived in Chicago, where we raised two children. Our son is now a banker and our daughter writes science curricula. My work was in infections and their control, mostly in Chicago, and West Virginia, but also in Nigeria, Thailand and Uganda. I still keep busy with Geriatrics, on a part time basis, in California. Other of my current multifarious interests include participating in book clubs and film classes, and reading Yiddish literature in the original. I am grateful to Central for providing a start not only for so many doctors and lawyers, but also for noted comedians, pastors and weathermen, and many others, including now, girls.

JAMES G. BEITCHMAN

BUZZ, AFTER A BRIEF BOUT WITH THE 211A, NOW FINDS TIME FOR A PLETHORA OF EXTRACURRICULAR ACTIVITIES. BETWEEN THE CYCLOTRON, RECORD BOOK, AND RUSSIAN LANGUAGE, HE OCCASIONALLY FINDS A MOMENT TO FULFILL HIS NORMAL SCHOLASTIC OBLIGATIONS. BUZZ'S AMBITION IS TO HAVE FUN AND MAKE LOTS OF MONEY, SO THAT HE CAN AFFORD TO BUY EXPENSIVE EQUIPMENT FOR HIS AMATEUR RADIO STATION, AND PAY HIS OBTAINED DOCTOR BILLS. THIS MAY BE DIFFICULT ON HIS SALARY AS A PHYSICIST.

A MEMBER OF OUR ALMA MATER'S VARSITY BOWLING TEAM FOR THREE YEARS, CHARLIE HAS SHOWN PROMISE NOT ONLY IN ATHLETICS BUT IN SCHOLARSHIP AS WELL, HAVING ACHIEVED BARNWELL HONORS DURING HIS STAY AT CENTRAL. IN HIS SPARE TIME, CHARLIE IS A STAMP AND COIN COLLECTOR AS WELL AS AN AMATEUR FISHERMAN. WE WISH CHARLIE GOOD LUCK IN VERY FAMILIAR TERMS; "MAY YOU BOWL 300 IN THE GAME OF LIFE." VARSITY BOWLING; INTRAMURAL SPORTS; BARNWELL HONORS.

RONALD BLUM

A MEMBER OF A DYING BREED, RONNIE IS ONE OF THE FEW MEMBERS WHO STILL ATTEND CONCERTS. WHEN NOT BUSILY LISTENING TO HIS FAVORITE ARTISTS, HE HAS HAD TIME TO ACCUMULATE BARNWELL HONORS AND TO SERVE IN MANY CLASS AND SCHOOL ACTIVITIES. UNSELFISH IN HIS SCHOLASTIC ABILITIES, RONNIE HAS NOBLY GIVEN SERVICE TO THE STUDENT TUTORS. WE ARE SURE THAT HE WILL GO ON TO (IN HIS OWN WORDS) "BIGGER THINGS."

ALAN BENNETT

My wife, Fran Kitey Bennett, and I are retired and living in Palo Alto. After the University of Penna., the University of Chicago, and Cambridge, I spent most of my working life as manager of industrial R&D for large electronic companies in Schenectady, Chicago and for the last 25 years in California. Most recently I worked for a government laboratory managing its relations with industry and work in Siberia. We have lived on assignment in Israel, England and Washington and continue to travel frequently. I have always been involved as a volunteer with Jewish communal organizations and that involvement has increased in retirement. I am also an undergraduate at San Jose State University studying languages in accord with the blurb in our yearbook which also accurately foretold my continuing ham radio activity. We have three great children and five grandchildren in San Francisco, Seattle and South Bend.

CHARLES F. BIGLER, JR.

The Bigler Family now consists of my lovely wife Diana (41 years); son Dr. Brian (Ophthalmology), wife Susan & grandson Lucas; daughter Kristen (Advert. Exec.), husband Anton living in CA. After Penn State (1963) spent career in finance, mostly as Controller for Div. of Goodrich Ind. Now retired and spending life as a snow-bird between Warminster, PA & Palm Springs, CA

RONALD BLUM

I am married with four grand children and reside in Florida. I will not be able to attend the reunion but I want to wish all of my classmates a great time. My years at Central were happy and have given me many unforgettable memories.

BRUCE BOGDANOFF

"BRUK's" many INTERESTS are varied. As well as being a magnificent pianist, a devoted Hebrew student, and an outstanding student at Central, BRUCE has two other noteworthy accomplishments. Not only did he receive the only "A" in his English class during his 12A term, but he also ran Wake Field without stopping! May BRUCE's hands be as skilled as a doctor's as they are as a pianist's.

Pin Committee; Social Committee; Banquet Committee; Service Committee; Philadelphia Orchestra; Intramural Sports; Barnwell Honors.

PAUL BOGOSLAW

PAUL has played a big part in the activities of the class as a member of many class committees. He has been associated with the pin and prom committees. Paul's main interest is to become an engineer. His main hobby is listening to show music, but he also enjoys participating in the intramural sports program. We are sure Bogie will become a successful engineer. School Service Committee; Pin Committee; Prom Committee; Intramural Sports.

CHARLES BORDIN

Charles, who seems to be the class "silent man," is a shining light scholastically. He has received Barnwell and Scholastic Honors numerous times. Jerry, as most of the fellows call him, intends to go to college and to study liberal arts. We are sure he will become an outstanding liberal artist.

EWART BOYLE

Blond Ewart has served the class on both the pin and service committees. "BUCK's" interest in cars reveals his ambition to become a mechanical engineer. We know he will become a success in this field. Some of Ewart's other activities include membership in the tropical fish club and participation in the intramural sports activities.

Service Committee; Pin Committee; Vocal Ensemble; All-City Chorus; Intramurals; Corridor Patrol; Early Morning Patrol; Tropical Fish Club.

BRUCE BOGDANOFF

Since my retirement from the practice of clinical neurology, I have returned to my musical roots. I am teaching classes in music appreciation, performing on the piano at retirement communities and senior centers, and acting in community musical theater productions. My classical trio, The Rose Valley Chamber Ensemble, consisting of piano, cello and clarinet, has been quite active performing professionally throughout the Delaware Valley. My wife Carole, a clinical psychologist, continues her busy practice in Bryn Mawr. Our son Neil (age 40), who has a master's degree in sociology, lives in Laguna Niguel California, with wife Lisa and our four year old grandson, Max. Our daughter Heather (age 38), who like her mother has a PhD. in psychology, lives in New York City with husband Felix and our 2 year old twin grandsons Guy and Hugo (with another grandson due to arrive in May 2009). I consider it my responsibility to convince all grandsons to root for Philadelphia sports teams despite living in New York and California.

PAUL BOGOSLAW

Entering Central, I became total confused about what I was doing and if truth be known, I remained confused until graduation. I got my BS in Business/Journalism at Temple, Class of 1966, then onto Washington, D.C. as an assistant lobbyist for Fortune 500 companies. New York was next working in a PR agency (at one time as a publicist for the Saudi Government - King Faisal didn't know I was Jewish and Abdul didn't care - then on to Wall Street as a Broker/Pension Specialist. NYU Grad School provided my Viet Nam deferment. Met and married a "KNEEW YOARKER" from Queens. After two children (Accenture consultant son Richard and lawyer daughter Deborah) three moves - Flatbush, Central NJ and Chicago, got a divorce and nine years later married #2 (Beverly from MI). In Chicago, PensionMetrics, Ltd. was born as a 1982 entrepreneurial start-up working with small to mid size business, designing qualified plans, installing them, doing IRS/DOL compliance work and looking to retire when I'm 87 due to this economy. Still confused as ever, but happy with life and in love with Beverly.

When He is NOT TRYING TO TALK HIS WAY OUT OF GX OR THE DISTANCE RUN, Leo can be FOUND ARGUING THE ESOTERIC POINTS OF GESTALT PHILOSOPHY WITH MRS. SHER IN THE PHYSICS CORRIDOR. In addition He HAS DISTINGUISHED HIMSELF AT CLASS MEETINGS BY READING ONLY nine verses OF THE BIBLE, THUS INCURRING THE WRATH OF THE PENNSYLVANIA STATE LEGISLATURE.

BARRY BRENNER

CLASSMATES WERE A LITTLE BEWILDERED WHEN BARRY SUDDENLY PRODUCED A WHOLE CLOSETFUL OF NEW CLOTHES IN THE MIDDLE OF OUR 12A TERM. HOWEVER, HE QUICKLY DIVERTED OUR ANXIOUS QUESTIONS ABOUT THE WHEREABOUTS OF OUR CLASS DUES BY A PATENTED "POEM BY BRENNER" OR A WRY COMMENT ABOUT OUR TEACHER OF THE MOMENT. BARRY'S GOOD HUMOR WILL SURELY STAND HIM IN GOOD STEAD FOR THE REST OF HIS LIFE.

ORCHESTRA; INTRAMURAL SPORTS; PIN COMMITTEE; BANQUET COMMITTEE; CAP AND GOWN COMMITTEE; BARNWELL HONORS.

IRA BRIND

"GOOD OL' IRA BRIND" IS THE LINK BETWEEN THE ADVANCED AND THE REGULAR CLASSES, SERVING TO INTRODUCE TO "THE BOYS" (AS MR. LEVENE WOULD SAY) SUCH INTELLECTUAL FADS AS LISTENING TO JEAN SHEPHERD ON SUNDAY NIGHTS, PLAYING BUMBLE-PUPPY, AND BEING EIGHT BEFORE YOU'RE SEVEN. IRA CAN BE ENGAGED IN LONG, INVOLVED CONVERSATIONS ABOUT ALMOST ANYTHING (OR EVEN NOTHING). IN OUR FINAL ESTIMATION OF IRA, WE WOULD LIKE TO QUOTE ONE OF HIS OWN PHRASES (AFTER WARSHAW): "GREAT GOD, WHAT A HUNK OF JUNK."

CHAIRMAN, STUDENT POLICY COMMITTEE; CLASS TREASURER; BARNWELL HONORS; P.T.C. REPRESENTATIVE; COLOR GUARD; DRAMATIC CLUB; INTRAMURAL SPORTS; SCHOOL SERVICE COMMITTEE; SILVER KEY.

JOSEPH BROOKS

JOE BROOKS PROFFESSES AN INTEREST IN EVERYTHING, AND HIS EXTRACURRICULAR ACTIVITIES DURING HIS FOUR-YEAR STAY AT CENTRAL CERTAINLY PROVE THIS. HE HAS WORKED IN THE GYM OFFICE, HAS BEEN ON THE DEBATING TEAM, AND HAS BEEN AN S.A. ALTERNATE, TO MENTION A FEW. JOE'S PRESENT OBJECTIVE IS COLLEGE, AND WE FEEL SURE THAT HE WILL DO WELL.

INTRAMURAL SPORTS; J.A.C.; SOCIAL COMMITTEE; BANQUET COMMITTEE; FRESHMAN COMMITTEE; P.T.C. REPRESENTATIVE; S.A. REPRESENTATIVE; DEBATING SOCIETY.

LEO BRAUDY

25 years now teaching at USC (after Yale, Columbia, and Johns Hopkins) and still married to my second wife, Dorothy (35 years)--both of which seems to imply unaccustomed stability, but I guess that's become normal, along with two stepsons, and three grandsons. Still writing, working on my ninth book, this one about the intertwined history of Hollywood and the Hollywood sign. The eighth was a yet-unpublished memoir of being a Philadelphia teenager in the 50s. There's a good chunk of Central in it, although more about Sayre Junior High. My agent says the market for memoirs has dried up, especially when nothing more sensational than the Hi-Lo Hop and the usual dark gropings are part of the story. Maybe I should self-publish. With all those Oldies But Goodies concerts there must be a market out there.

BARRY BRENNER

I am a CPA and I still have an active Tax Practice. I work long hours until April 15th and then I get to rest up the rest of the year. I have been married twice and divorced both times. From my first marriage I have two children and three grandchildren. I am very close with my kids and spend a lot of time with them. I don't often think back to my days at Central, but when I do I swell with pride thinking about the great education and preparation for life in the future that was there for me.

IRA BRIND

Ira Brind has extensive experience in private equity investing and venture capital investing. Ira currently serves as President of Brind Investments, Inc. where his primary focus is investing in private equity, real estate and hedge funds. Ira is Chairman Emeritus of the Board of Trustees of Thomas Jefferson University Hospital, and Vice Chairman of the Board of Trustees of the University of the Arts, and Vice Chairman of the Jefferson Health System. He is a member of the Board of Trustees of the Philadelphia Art Museum, The Wistar Institute, the University of the Arts, The Connelly Foundation, Thomas Jefferson University, Thomas Jefferson University Hospital, and the Jefferson Health System. He serves as Chairman of the Board of Advisers to the venture fund ETF, and is on the Board of Advisers to the private equity fund North Castle Partners. He created the Myrna Brind Center for Integrative Medicine at Jefferson University Hospital in Philadelphia. The Center brings together the best of conventional medicine with promising complementary and alternative approaches to healing. His son David had film in Sundance this year. AB Degree, University of Pennsylvania, 1963., JD Degree, 1967. Ira has two sons David and Robert, and a granddaughter Sarah Brind. Ira resides in Philadelphia

VOCAL ENSEMBLE; BARNWELL HONORS.

IT'S NOT THAT MIKE LIKES TO HOARD THE GREEN STUFF, BUT HE IS USUALLY THE LAST TO PAY FOR ANY CLASS FUNCTION. HIS TALK OF CARS IN GENERAL AND HIS OLD JALOPY IN PARTICULAR IS EVIDENT IN ANY CONVERSATION ABOUT THE SCHOOL. THE ZANY SMILE AND LAUGH OF "BRIGHT EYES" ARE WELL KNOWN BY HIS FELLOW CLASSMATES. MIKE WILL BE, WITHOUT A DOUBT, THE FUNNIEST ENGINEER EVER TO BE GRADUATED FROM COLLEGE.

BARNWELL HONORS; STAMP AND COIN CLUB; VARSITY TABLE TENNIS; SERVICE COMMITTEE; TENNIS TEAM.

PETER J. CLELLAND

ALTHOUGH AT ONE TIME SWAYED BY THE INFLUENCE OF HANWELL TO WEAR A GOP PIN FOR ONE DAY, PETE QUICKLY REVOKED THIS SHOW OF PARTISANSHIP AND RESUMED HIS OLD POSITION AS "THE FIGHTING NEUTRAL." HIS HIGHLAND BURR IS SO WELL KNOWN THROUGHOUT THE SCHOOL THAT MR. BARSKY ENLISTED HIS SERVICES AS A LINGUISTIC ADVISOR FOR THE DRAMATIC SOCIETY'S PRODUCTION OF "THE HASTY HEART."

EDWARD H. COHEN

ALTHOUGH Ed is one of the QUIETER FELLOWS in OUR CLASS, He is NOT BY ANY means THE LEAST KNOWN OF OUR GROUP. POPULAR WITH HIS FELLOW STUDENTS, Ed is a BIG HIT WITH THE OPPOSITE SEX. ALL HIS FRIENDS ADMIT THAT THERE IS NO ONE THAT CAN JERK A SODA AS WELL AS OLD Ed. BECAUSE OF HIS ABILITY TO MAKE FRIENDS AND TO JERK SODAS, He WILL CERTAINLY BE A SUCCESS IN HIS CHOSEN FIELD OF PHARMACY.

THEODORE COHEN

Ted's TACITURNITY is one OF THE CONTRIBUTORY FACTORS TO THE STATELY SILENCE WHICH SURROUNDS Central's "nerve center." NOTED FOR HIS SOCIABILITY, Ted HAS BECOME A KEY MEMBER OF THE SOCIAL COMMITTEE. A VERY POPULAR MEMBER OF THE CLASS, He IS SURE TO USE HIS CONGENIAL PERSONALITY TO ATTAIN HIS GOAL IN LIFE.

SCHOOL Service Committee; OFFICE AID; SOCIAL COMMITTEE; CROSS COUNTRY Team; INTRAMURAL SPORTS.

ARNOLD COOPER

Arnie HAS FOUNDED A NEW RELIGION TO WHICH He and a "FEW LOYAL, TOLERANT FRIENDS," AS He PUTS IT, FAITHFULLY ADHERE. IT IS CALLED "FATS DOMINOISM." NOT ONLY DOES ARNIE COLLECT ALL OF FATS' RECORDS, BUT He ALSO REARRANGES AND SINGS HIS IDOL'S NUMBERS. TO ARNIE, WHO IS ALWAYS READY WITH A SMILE AND A JOKE, WE WISH THE GREATEST HAPPINESS AND SUCCESS; WE KNOW THAT He WILL BE THE "BESTEST, SWINGINGEST TEACH" AROUND.

EDWARD COHEN

After graduating from Central High School I received my BS in pharmacy from Temple University. From there I received my D.O. degree from Philadelphia College of Osteopathic Medicine. After post doctoral training I pursued a career in Anatomic Pathology and Laboratory Medicine in the Detroit metropolitan area. I am now retired after 35 years of practice in my specialty and am living in Colorado. I have been married to my wife Jacque for the past 42 years. We have two sons, one grandson and are expecting a second grandchild in August.

I've always considered Central High School to be a major catalyst for my professional career due to the excellent education and training that I received there.

BARRY COOPERBERG

Some people's value to a group cannot be shown by a list of activities; such a man is Barry Cooperberg. Barry's friendly smile and personality have been a fixture in the class for four years, and these assets, plus his scholastic ability, guarantee him all the success he so richly deserves. Intramural Sports; Freshman Committee; Barnwell Honors; P.T.C. Representative.

LEON CREWS

Leon's remarkable ability to run has won him his "place in the sun" at Central. His reputation as the class Pheidippides is exceeded only by his fame as a lunchroom Mussolini. Leon's attitude toward life, expressed by his motto, "Rejoice, we conquer," will surely make him a success. Cadet Cross Country; Varsity Track; School Service Committee; Intramural Sports.

HOWARD DARMSTADTER

Howie has spent much of his time at Central running for the track and cross country teams, and from Mr. Warshaw. He seems to have more ability in accomplishing the former. Out of school, Howie's interests run to automobiles and girls, and he sometimes spends time on dark roads enjoying these two interests at the same time.

Sports Editor, Record Book; Tutoring Committee; J.V. Cross Country; Cadet Track; J.V. Track; Barnwell Honors; Book Treasurer; Silver Key; Intramural Sports.

ROY DAVID

Roy "DeGaulle" David is famous for his executive policy as President of the Student Association. In this office he has created more of a sensation than the preceding 117 CHS chief executives. He is also known for his shocking impressionistic art work and for his missing ear. If he survives the attacks of the Centralizer and JAC, he will certainly become a famous artist.

Gold Key; S.A. President; S.A. Representative; Dramatics — "Submerged," "Hasty Heart," "The Boor"; Art Editor Centralizer, Mirror, Record Book; Class Paper; Varsity Football; Intramural Sports; Magicians Society; Mechanics Club; Library Aide; Barnwell.

JOHN e. DOWELL, JR.

JOHN "T'Luse" DOWELL is one of the 211's most SKILLED ARTISTS. WHenever one sees JOHN, He IS CARRYING one OF TWO THINGS, a PAINT BRUSH OR a RAPIER. His MODERN ART IS SURPASSED ONLY BY HIS SMART MODERN DRESS. Even IF JOHN JR. DOES NOT BECOME an ARTIST, as He PLANS, we KNOW He WILL make a SUCCESS OF HIMSELF as a MODERN HamLET.

I have been completely involved in the Annual Banquet of the Donegal Chapter of Trout Unlimited. I serve as President of the 600 member organization in Lancaster County and have been involved for about 14 years after my retirement. After serving 26 years as a Pa. State Trooper and then owning two businesses I have channeled my free time to working in conservation with this non-profit organization. I'm hoping the reunion goes well . . . I don't remember many of the guys as the years go on.

LARRY S. DURST

I graduated from the Philadelphia College of Pharmacy and Science (PCP&S) in 1963. I worked in retail pharmacy until 1975, when I then bought my first store. Over the years I owned 4 Pharmacies.. I divested myself from retail, when I became ill in 2000, and needed a liver transplant. Since then I have been involved in alternative medicine. I am now the chairman of the Scientific Advisory Board of Emergent Health Corp., a public company, and do consulting work for several health food stores and their clients. I recieved a Masters Degree in Pharmacology, from Florida University, in 1989, in order to do specialty nutrition consulting. I am married to Susan F. Spivack, and live at the Philadelphian Condos in Philadelphia.

EDGAR EBENBACH

Ed is almost a monomaniac on the subject of electronics. It is no wonder he has been nicknamed "Short-Circuit Eddie." He carries his hobby into his extracurricular activities and is a stalwart on the projection and stage crews. Any time not spent in the electrical field is dedicated to classical music.

Projection Crew; Captain of Stage Crew; Radio Workshop; Mimeograph Crew; Radio-Electronics Club; Cyclotron Club; Barnwell Honors.

BRUCE A. EISENSTEIN

"A rare mixture of brains and modesty" best describes Bruce. Spending much of his spare time dabbling in electronics, he is often called "Einstein" by his classmates. He is often called other things by his teachers. He has contributed much to the school by his participation in scientific activities.

Track Team; Cadet Football; Scout Club; Chairman of J.A.C.; Project Engineer; Cyclotron Club; Chairman, S.A. Freshman Committee; Cap and Gown Committee.

THEODORE ELLIS

Ted is a very concise person and always comes to the point, as members of opposing fencing teams will attest. He is also quite shocking at times, as his friends in the Electronics Club will be glad to say. In his spare time Ted works on scientific projects, especially in the fields of radio and electronics. He has no particular plans for the future, but we're sure he will succeed.

Radio Electronics Club; 807 Society; School Service Committee; Fencing Team Varsity and Manager.

DANIEL FEINSINGER

Blond Danny is one of the quieter members of the class. However, his gentle disposition has not prevented him from doing well in school and winning Barnwell Honors. Danny's other interests, besides girls, of course, (he's quite a wow with them) are sports in general, with intramural basketball predominating.

Intramural Sports.

ED EBENBACH

After receiving a BSEE degree in 1963 from Carnegie Tech, I spent 3 years working as an electronic engineer for Philco-Ford, then 36 years working for one company - Jerrold Electronics then General Instrument then Motorola, the leading supplier of Cable and Satellite TV equipment and systems. Although I started as an engineer specializing in analog and RF circuitry (and developed the first, now ubiquitous TV set-top cable converters), I spent the last 21 years as a Vice-President in a diverse collection of General Management, Marketing, and Operations roles enjoying increasing levels of responsibility.

Now retired and living with my wife in Doylestown, PA, I operate a small consulting practice focused on developing custom Excel based office automation solutions for small businesses, and on a variety of Telecommunications projects. I also serve on two volunteer boards for Doylestown Township, and have lead and served on the Boards of the Suburban and the Horsham Chambers of Commerce.

BRUCE EISENSTEIN

I've had a wonderful life – one wife, 3 kids, 6 grandkids, one job, and still working. I got a BS (MIT '63), MS (Drexel '65), and Ph.D. (Penn '70) all in electrical engineering, and did post-doc work at Stanford and Princeton. In 1965 I became an Instructor at Drexel and I have been there since, including 15-years as department head and 6-years as associate dean, and presently a named professor. In 1963, I married Toby (Karet), Girls' High '60, Wellesley, Bryn Mawr Ph.D.). Toby is a prof at Temple Medical School. Our oldest, Eric, is also a prof at Temple, Andrew is a real estate developer, and Ilana is a lawyer. In 2000, I was the president of IEEE and travelled around the world giving lectures and talks. I still play tennis and squash and I am able to hold my own with the youngsters. CHS was very good for me. I received a better liberal arts education at Central than my kids got from the expensive Ivies. I still remember my Latin, German, history, and politics as well as the math and science. But most importantly, CHS is where I met Toby, 51 years ago. It doesn't get any better than that!

DAN FEINSINGER

After graduating from Central, I attended Temple University and graduated in 1966. In the same year, I married my beautiful wife, Barbara. We have 3 daughters and 6 grandchildren, ages 4 to 19. I served as a Lieutenant in the US Army stationed in Germany from 1966 to 1969. After returning home, I entered the Human Resource field as Personnel Mgr. with Philco Ford in Lansdale, PA. In 1975, I was recruited by the Miller Brewing Co. in Milwaukee and served as the Industrial Relations Mgr. with them until 1980 when I was recruited as Human Resource Director for Helene Curtis Industries in Chicago. In 1987, I started my own Human Resources consulting business and retired in November of 2008.

MYRON FELDMAN

BUTCH "Imperial" Feldman is the 211's transportation link with the wonderful section of Wynnefield Heights. Although he has a remarkable knack for getting flats before football games, Butch's main claim to fame is his tennis game, and we have heard tell that he often pitches his tent in Fairmount Park to make sure he gets a court in the morning. With such spirit we are sure Myron will be a success in life — as a tent pitcher, perhaps.

SCHOOL Service Committee; Special Events Committee; Varsity Tennis; Cadet Football; Pin Committee; Intramural Sports; Barnwell Honors.

ARNOLD FELDSHER

Arnie has been called "animal" by his classmates because of his muscular build; in fact, he is looking for a bout with Floyd Patterson. Arnie's good sense of humor should make him a successful comedian if he so desires. His real ambition is to take engineering at Penn State. (There are girls there.) School Service Committee; Prom Committee; Social Committee; Special Events Committee; Pin Committee; Barnwell Honors.

ROBERT FIELDING

Famous for separating Feldsher and Flocks, Bob is one of the 211's great compromisers (cf. Henry Clay). The rest of his time is divided between the early morning patrol, the School Service Committee, and an afternoon job in a department store. He is flirting with the idea of attending a theological seminary and intends to become a chaplain in the U.S. Navy.

Cadet Football; P.T.C. Representative; Service Committee; Centralizer; Captain, Early Morning Patrol; Corridor Patrol; S.A. Representative Alternate; Intramurals.

JAY FLOCKS

Affectionately known to his Latin teachers as Jay, is famous for carrying his ubiquitous camera. A staunch opponent of the city's curfew law, Jay challenged the ordinance and won a token victory in the city's magistrate court. His main interest is amateur radio, and he spends much of his time on this hobby, and often breaks into erratic oscillation during long Record Book editorial sessions and cyclotron-planning meetings.

Managing Editor, Record Book; Centralizer; Photography Editor, Mirror; 807 Society; Photographic Society; President, Current Events Club; Cyclotron, Project Engineer; Cadet Football Manager; Goldbaum Science Prize; Gold Service Key; Barnwell Honors; Scholastic Honors.

ARNIE FELDSHER

Life after Central...USMC reserves '59 (bad idea); B.S. Temple, '64; Univ. Chicago, '65; sex, drugs, rock and roll, M.B.A UC Berkeley '66. I worked as an economist for H.U.D. in San Francisco for a few years then chucked it for a more free-wheeling turn as a sandal maker and part-time farmer. Settled down in Healdsburg Ca. where I grew Pinot Noir and started a jewelry business from which I retired this year. I remarried 8 years ago and Britta and I have enjoyed extensive travel throughout Europe and Southeast Asia. I look back at my days at Central with great fondness. I remember the simple pleasures of freedom and friendships, the joy of learning with like-minded peers, and the pride of being part of a great and unique institution. Life was sweet as a student at Central and I very much hope it remains so today.

ROBERT FIELDING

On Sunday after graduating from Central, I was at West Chester University (then State College) - January 1959 to August 1962. I majored in mathematics and minored in history and received a BS in mathematics and education. I earned an MS in mathematics education in 1965 from West Chester. I have also earned a Mathematics Supervisor certificate from Temple University and Secondary and Elementary principal certificates from Immaculata University.

I taught mathematics in West Chester Schools from 1962-1999 when I retired from public education. I was also an adjunct instructor at Widener University. After leaving public education, I have been teaching in private schools and I am currently at Devon Preparatory School.

I married Judith Yarnall in June 1963 and we have two children Cheryl Lynn (1966) and Mark Alan (1969). Both of them have two children. Cheryl was a middle school science teacher now a stay at home mother living in Orlando. Mark teaches mathematics at Council Rock South.

One of my freshman roommates was Arnie Cooper with whom I lost contact after graduation from West Chester University.

GEORGE FRIEDMAN

MA in English at Duke (Arnie Cooper was my roommate) and taught at West Chester for a year. Came to Towson U in 1966; eventually got a PhD from Duke in 1972. Retired in 1999, Professor of English. Served as Faculty President for eight years, and this year will have a classroom dedicated in my name. Wrote an insignificant novel, published by a minor press, based loosely on my grandparents.

In 1984, married Karen Blair, currently Assistant Dean of Education at Towson. Karen will be retiring this summer, and soon we will probably be moving to Troy, NC, a sleepy little town where folks gather on Saturday nights to watch the Food Lion trucks unload. But people are warm and hospitable, and Southern Pines is nearby. I grew fond of NC during my years at Duke. I have warm memories of CHS and the 211. And after almost fifty years, I still miss Joe Brooks.

BARRY GEWEN

Living in Manhattan. I am one of the Editors for the New York Times Book Review.

JACK GINSBURG

As some equally famous and unknown philosopher once observed: "If Joe Brooks is there, can Ginsburg be far behind?" "Reds," as he is called by no one, is famous for his worldly comments in Mr. Schrage's physics class and will no doubt someday be forcibly evicted from a physics lab. His fine French utterances (in imitation of a world literature teacher) will undoubtedly suit him for something or other. THEODORE GLAUSER

"Casual" Ted, who resides in the dark, intrigue-filled, back rows of Book 2, is a man of diverse interests. Famous for shouted comments when the teacher turns his back, wry comments on his mentor's sanity, and defaulting on his dues, Ted has lately turned his interests toward girls, soccer, the pin committee, and getting in those dues. Good luck, old sock. Intramural Sports; Astronomy Club; Service Committee; Pin Committee.

LEONARD GLICK

"Smiling Lenny," as teammates and classmates know him, devotes much of his time to athletic activities. He has worked many long hours on the gym team and track team in addition to his regular school work. Unbeknownst to most people, his very great interest is classical music. Lenny is college-bound, and assuredly will "make his mark in life." Varsity Gym Team; Track Team; Cheerleader; Wcen Rocket Society; Library Aid; Pin Committee; Class Trip Committee; Intramural Sports.

RICHARD GLICK

Rich is more fortunate than most students in that he has two claims to fame: his sun glasses and his terrific feeling for drawing fire hydrants and bloodshot eyes. He has fond hopes of becoming a psychiatrist so that someday he may be able to find some use for these wonderful talents. When Rich is not writing letters to "Ethical Problems," he finds time to do his school work.

RITCHIE GLICK

Married to my wife Anita for 37 years. We have a son, Jared, and a daughter, Jennifer, but no grandchildren yet. I guess we aged more slowly than most of the class. After stints at the University of Pennsylvania, Temple University Graduate School, and the U.S. Army, I attended Philadelphia College of Osteopathic Medicine and continue to practice medicine. It keeps me off the street and out of trouble. I have found over the years that the fraternity of the alumni of Central High School is unmatched by any other that I have encountered.

JACK GORMAN

In Preparation FOR HIS FUTURE WORK — ORTHODONTISTRY — JACK HAS SERVED AT THE Einstein Medical Center, and HAS OFTEN BEEN SEEN FLASHING A TOOTHY SMILE IN THE HALLS. He GAINED ADDED KNOWLEDGE IN AN UNKNOWN COURSE CALLED SOCIAL SCIENCE III. HIS DESCRIPTION OF THIS SUMMER COURSE MAKES US ENVY HIM FOR BEING SO CAPABLE AS TO GET A 99 AVERAGE.

KERMIT BARRON GOSNELL

"Goose" Gosnell, PERENNIAL PTC REPRESENTATIVE OF HIS HOMEROOM SECTION, IS ONE OF THE SPEEDIER 211 MEMBERS. He HAS GONE OUT FOR (AND WON VARSITY LETTERS, OF COURSE) IN VARSITY TRACK AND CROSS-COUNTRY RUNNING. ALTHOUGH LOSING THE ELECTION FOR CLASS SECRETARY BY A FEW VOTES, KERMIT IS ONE OF THE MORE POPULAR MEMBERS OF THE CLASS. We ARE SURE He WILL MAKE A MARK FOR HIMSELF IN HIS CHOSEN FIELD OF MEDICINE.

INTRAMURAL SPORTS; CLASS COMMITTEES.

SAM GOULD

"Sambo," AS He IS AFFECTIONATELY CALLED BY HIS VARSITY FOOTBALL TEAMMATES, IS A MIXTURE OF He-man BRAIN AND SENSIBLE BRAINS. HIS DESIRE TO DO WELL AT EVERYTHING He DOES IS EVIDENT BOTH ON THE GRIDIRON AND IN THE CLASSROOM. HIS POPULARITY AMONG HIS CLASSMATES IS MATCHED BY HIS ENTHUSIASM FOR THEM. We KNOW Sam WILL AMPLY FILL HIS NICHE IN LIFE.

THERE NEVER WAS A MORE ARDENT, "DYED-IN-THE-WOOL" PHILLIES FAN THAN BOB. MATCHING HIS STRATEGY WITH THE PHILLIES MANAGER'S, IT WAS USUALLY BOB THAT KNEW BEST. FOR THE PAST YEAR, EVER SINCE SYL BECAME PIN COMMITTEE CHAIRMAN, HE HAS SPENT MOST OF HIS TIME THINKING OF THINGS TO SELL TO THE MEN OF THE 211. AT THE SAME TIME HE HAS ACQUIRED A NEW CAR, TWO NEW SUITS, AND A BODYGUARD. SERIOUSLY THOUGH, SYL HAS DONE A TERRIFIC JOB, AND, IF HE TACKLES COLLEGE WITH THE SAME AMOUNT OF ZEAL AND EFFORT WITH WHICH HE HAS TACKLED THE PIN SITUATION, WE ARE SURE THAT FOUR YEARS FROM NOW HE WILL BE SYLVAN GROSS, C.P.A.

MYRON (MIKE) GREENBERG

Career: Department of Defense, Navy-Anti-submarine warfare: retired.

Family: Married to Eileen for 41 years. Two children, Ami and Joshua, both with Ph.D's in Computer Science (bragging!). We have two magnificent grandchildren.

I taught physics and math at Central High School for a short time after graduating from Temple University. The principal and Dr. "Dish" asked me to stay, but high school teaching was not for me. I have many fond memories from CHS, but they are too numerous to recount. I still love physics, and I hope to be around when they get the LHC running. I still paint in acrylics and have sold a painting to a gallery in Pittsburg and am exhibited in a gallery in Dania Beach, Florida.

I welcome correspondences from classmates at eileengreenberg@hotmail.com

BOB GROSS

50 years? Seems like yesterday I was cutting classes and coasting through CHS (not the advice I gave to my kids). Graduated Temple undergrad in '63 and did some law school and some graduate work before joining a family real estate business, which was my life for nearly 40 years. Cashed out and shrewdly (?) plowed the proceeds into the stock market. Married for 39 years to a Penn grad (Diane) who vastly improved the gene pool for our two offspring, Carrie and Ben. Both are married, and I'm soon to be a grandfather. Life ain't bad.

SYLVAN GROSS

What a great fifty years it's been since graduation. Married an incredible life time partner (Judy), have two beautiful daughters (Suzanne and Donna), who married super guys (Jeff and David, who are like sons), and who gave us four wonderful grandchildren (Jami, Ethan, Jake and Owen). Working three days a week at a business I co-founded with my brother in 1970. My memories at Central have stayed with me all these years. Besides how lucky we were to have the opportunities CHS afforded us, my favorite remembrances are the great classmates and friends I have, and met from attending Central.

MIKE GRUBER

After 4 great years @ CHS I went to Temple U and its Medical School. I interned @ Hahnemann and then did my Neurology Residency @ the New York Neurological Institute of Columbia P&S. I then moved my family to Englewood NJ where I practiced and taught @ Columbia/ I then moved to Boston to do a fellowship in Neuro-oncology @ Mass Gen Hospital. Post training I stayed at Harvard, then moved to LA { Cedars-Sinai and UCLA } and in 1994 returned to New York and am currently Clinical Professor of Neurology and NeuroSurgery. I remarried in 1994 [Maura] I have 4 children Joe is a Tax lawyer @ Pfizer, Debbie is a Neuro-oncologist and works with me @ NYU , Daniel is in business and Emily is in the 6th grade. We live in Englewood NJ. The study habits I developed and the social skills I honed @ CHS have served me well over these years.

evan Haines

Ev is one of Mrs. Sher's more popular students, and he makes up for his lack of brilliance in other subjects by shining in her class. Ev and his trench coat are inseparable, and he is immediately recognizable. Though he hasn't made his future plans yet, we are sure he will work to his capacity in whatever field he chooses.

Social Committee; Special Events Committee; Prom Committee.

walter Haines

Walt has gotten many kicks out of his stay at Central, most of them with the JV soccer team. When he is not kicking a soccer ball or a person, he can be found tampering with equipment in the radio workshop. Walt has the distinction of being one of the few class members who belong to the Civil Air Patrol.

J.V. Soccer Letter; Radio Workshop; J.A.C.

DAVID Hanwell

That boy walking down the hall with the German book in front of his face must be Dave Hanwell, or is that name Harwell? Dave's favorite subject occupies most of his school time, although he does dedicate a large portion of that time to Mr. Warshaw, algebra, and coming in at 8:05 in the morning. Dave wears a sport jacket, and whether it rains, snows, or hails, Dave wears a sport jacket. Some class members are beginning to say that it is glued to his skin.

Ever since 9a, all of Al's classmates have wondered who the first was, and whether there will be a third. The better you know "Rocky," who is quiet, but not the bashful type, the better you must like him. We wish the future "Dr." Harkavy all the luck in the world.

EVAN L. HAINES

Attended Valley Forge Military Junior College and completed Hotel and Restaurant Degree at Penn State University. Early years were spend as owner of local restaurant, Marriott and Holiday Inn Food and Beverage Director and finally spent 30 years as Director of Food Services at the Colonial School District in Plymouth Meeting before retiring at the end of 2007. Since then I have continued my artistic pursuits as a local artist with membership in several art centers including the Manayunk Art Center. I have been married to my wife Evelyn for 37 years. We were not blessed to have our own children. I have visited Central several times in the last 10 years. The education and staff and classmate friendships have been rewarding experiences over the years.

M.A. Cal State Univ., Sacramento, 1969

Career Highlights:

California Legislative staff, 1965-70

Founder and Publisher for 27 years of *California Journal*, the monthly magazine of state government and politics, 1970-97

Sacramento City Council, 1977-81

ARNOLD J. HOFFMAN

I finally retired from my 40-year career as an economist with 'Uncle Sam' in Sept. 2007. The last 18 years were at FAA, where I evaluated costs and benefits of proposed aviation safety rules. The work was interesting and quite challenging. My earlier service was at the Labor Dept. and EPA. I now have more time to read, relax, travel and exercise (I weigh 5 lbs. less than in Jan.'59)! A longtime divorcee, I date and attend social events with the 'over 50' crowd. My 28-year-old daughter lives in the D.C. area and we spend quality time together; she recently accepted an attorney position with the federal gov't. Although I still miss much about Philly, I enjoy the D.C. area and probably will remain here. I have fond memories of my years at Central and enjoyed 211's camaraderie. It was certainly worth the hour trip from SW Philly. The instruction I received at CHS laid the foundation for my ability to 'think outside the box.'

STEPHEN HOFFMAN

THE ONLY TROUBLE WITH HOFFMAN'S JOKES IS THAT YOU INVARIABLY LAUGH SO LOUD AT THEM THAT YOU IMMEDIATELY GET INTO TROUBLE WITH YOUR INSTRUCTOR (HONORABLE OR OTHERWISE) FOR DISTURBING THE CLASS. STEVE'S BROAD SHOULDERS AND WRY SMILE HAVE BEEN A UBIQUITOUS SIGHT ON THE CENTRAL SCENE SINCE 9A (THAT IS, UNLESS HE WAS STANDING SIDEWAYS WHEN YOU HAPPENED TO LOOK AT HIM). Became a long-haired hippie and went west in my VW bus to find the true meaning to life. My Central HS experience provided the framework for my long career in medicine and my ongoing education. After graduating I went to the The University of Pennsylvania and majored in American History. After graduating Penn I went to Hahnemann and graduated in 1966. I did my training at Abington Hospital, Georgetown Medical Center in DC, and Albert Einstein Medical Center in Philadelphia. I practiced pulmonary and critical care medicine at Abington Hospital in Montgomery County from 1972 until 1997. From 1997 to 2006 I worked for Merck & Co. overseeing a large occupational medicine clinic at Merck's site in West Point, PA. Merck retired me in 1996 and since that time I have been taking classes at Penn and am on the board of a brain injury rehabilitation center in Chalfont, Bucks County. I am struggling with the game of golf and have been over the last 30 years. I am married to Elizabeth and have two grown daughters, both working and raising their families. We have four grandchildren (2 boys and 2 girls) who just light up our lives. Liz and I have been traveling a great deal and are enjoying our lives. We live in Doylestown and are active in the community. Life, as always, has had its challenges, but we consider ourselves fortunate and are having fun in our retirement.

Rarely do we look back on what has passed but a half century is one of those times. I was pleasantly surprised to see how many of the 211 members, even from their address, were actively involved as professors and how many others were active members of learned professions. I've been proud that many physicians whose training I've helped along have done so well—in fact my own personal physician is one of those. The skills one first learned at places like Central become amplified and refined at many other places and institutions and, if we are lucky enough, we have the opportunity to do original work and pass along what we know to those who will replace and hopefully improve on what we have done. How lucky we all were to get such an opportunity—lets pass it along.

STEVE KAY

My entire career has been in IT until I (sort of) retired and bought a franchise. Bad, bad move. I'm now looking to enter the real estate market as an investor/developer. Married at 25 and divorced at 31. I was single for many years doing the shore house and ski house scene – recovering through the Spring and Fall. Married at 52, divorced at 59, 2 amazing kids, now 13 and 14 (yeah, I know, same age as your grandchildren). But it was definitely worth the wait. I, now, spend most of my time searching for properties and taking my kids to events. Or is it taking my properties to events and searching for my kids? I get sooo confused!!

STEVE LAVER

I write this bio while sitting in an attorney's visiting room in the Federal Detention Center in Philadelphia trying to gauge how much time since our days at Central I have spent "in jail." I am reminded of Mr. Lipshutz's Constitutional Law and Government class and the import of the fourth, fifth, and sixth amendments in my life. While in law school I married Nita, thus enabling me to sleep with my therapist for forty six years. We have raised two great kids who have married "well" i.e. married people who share their values. Each of them has given us two terrific grandchildren. While not in court, enjoying our family, or traveling, I have found the time to head the National Tay Sachs and Allied Diseases Association and the National Committee to Reopen the Rosenberg Case (yes those Rosenbergs), and to chair or participate in the work of a number of local professional, political, and community organizations. I currently hold the position of Vice President of our CHS Alumni Association.

We have two children, Michelle and Michael, who are both married and two more grandchildren coming soon. We are all in good health and I am enjoying retirement.

ALAN LERNER

After graduation, Alan, headed south - to Penn. After 3 1/2 years of pinball, baseball, and fraternity ball, with an occasional economics class, Lerner realized that none of this foolishness would pay his rent, so he headed north (across Walnut Street) to Penn Law. There, he helped to organize the Law Students Civil Rights Research Council, enjoyed some southern hospitality in Mississippi during the summer of 1964, and graduated in 1965. After a year of civil rights work, followed by a judicial clerkship, he joined a Philadelphia law firm. During the ensuing 25 years, Alan litigated and counseled clients about labor and employment issues. He married, divorced, and re-married - to his "last wife" Adelaide Ferguson [a lawyer and an international educator], who retired last December, after more than 20 years at Temple University, most recently as Interim Vice President for International Affairs. Adelaide and Alan have two wonderful children Jason, and Rachael, both happily married, and two delightful grandchildren, Eli, 5, and Samantha, 3. In 1993 Alan resigned from his firm to join the faculty of Penn Law, where he heads the Interdisciplinary Child Advocacy Clinic, representing children in the child welfare system, and in connection with denials of their rights to special education and disability benefits. Alan still finds time to play in the Men's Senior Baseball League, travel, write, practice yoga, and recently started piano lessons.

RODGER LOWENTHAL

Married twice, the second time it took. Two daughters, both honors college graduates. One a lawyer-professor, the other a nurse. I am basically retired from many things. Still, while I wait for my monthly checks, I keep busy substitute teaching, selling advertising ephemera, playing poker and writing poetry. Happy to correspond with any or all.

ROBERT S. LUCIANI

My wife Dolores and I have been married for 42 years. We have two sons who have followed their dad and are Mechanical Engineers, two lovely daughters-in-law and five grandchildren who keep us busy with their various activities. I have worked most of my career in the pump division of Ingersoll-Rand and Ingersoll Dresser Pump. I am currently employed as a Project Manager at the Delaware River Joint Toll Bridge Commission.

I remember 1957 football season when we were undefeated but were not league champions because of a 6-6 tie with Olney played in 6 inches of mud. Two a-day football practice sessions in the September heat! In 1957 or 1958, we won the Public League fencing title. These are only a few of the many fond memories that will always be a part of me.

After CHS, I went to Swarthmore College and MIT for my academic degrees in Civil Engineering. As a Professional Engineer licensed in several states, I investigate and analyze site, soil and rock conditions for the design and construction of foundations and related elements of buildings and other facilities. Over the years I have consulted on about 2,000 projects located around the US and in Canada and Puerto Rico, and that range in scale from a park concession stand to the Betsy Ross Bridge. A few of these projects provided subject material for the several professional papers I've had published. Sondra and I married a bit more than nine years ago – a second marriage for both of us. Together we have five children – three of whom live away from the area - and nine grandchildren. Visiting them all adds to our list of favorite vacation destinations throughout the US.

Linda and I married in July 1960 and will soon celebrate our 49th anniversary (I'm thinking class record here). We have 4 wonderful children (Vicki 46, Jenny 45, Jeff 43 & Pam 42). With my CHS foundation, much hard work by Linda, Temple's night Law School and some scholarship funding, by 1968 I had a JD and a law license. Now 40+ years of general practice later, ending with 7 years as Bucks County Solicitor, I'm pretty much retired. Still look back to Central days as both the best and sometimes the most terrifying of my life.

TOM MCCORD

Welcome to all my classmates. Family: two daughters, 3 grandsons, 1 granddaughter. Daughters grew up in Houston, when I worked for Shell. My older daughter, an elementary school teacher and diehard Texan, graduated from Univ. of Texas. My younger daughter could not wait to get out of Texas, graduated from Penn. She lives outside of D.C. and is involved in preventing spread of HIV, mainly in Africa. My career: research related to power generation at utility power plants, until I found my niche, in technical marketing related to coal utilization. For some years I battled trigeminal neuralgia until finding a great neurologist in Austin. What you would least expect from "McCord"? After being divorced in 1989, I took up partner dancing; swing and country/western. One of the best decisions in my life. Current retirement pastime: trading stocks and currencies.

NORMAN H MEYERS, DDS

Married in 1963 and graduated from Temple University School of Dentistry in 1965; divorced in 1982 and happily remarried to my great wife, Evelyn. We have five children (one in New York, one in New Jersey, two in Oregon and one living near us in Florida) and three grandchildren (two in NY, one in Oregon). Spent thirty plus years in Bensalem, PA in general practice and retired in 1998 relocating to Lake Worth, FL where we have resided since. Still bowling competitively, currently carrying 192 average. Had the good fortune of rolling a perfect game in Wichita, KS in 1989 at the American Bowling Congress national tournament. We like to travel and have been all over the world. Enjoy living in sunny Florida trying to stay as healthy as we can. Would have to say that I owe a good deal of my success to the great education from good old CHS. Actually found that undergrad and dental school was easier than high school and think that it was due to experiences and marvelous learning atmosphere at Central. It was something special.

LOUIS MILAKOFSKY

LOU, who has distinguished himself by winning Barnwell Honors many times, will always be remembered for his valuable contributions to the success of his class. We are sure that Frank will find his way to the top ranks of the teaching profession.

BOB, the 211's D'Artagnan, has been well known as a Central Swordsman. A member of the fencing team for two years, he is a dangerous man to meet on the field of honor. Bob's ambition in life is to become a corporation lawyer and make lots of money. Undoubtedly many of the trust suits undertaken by the government in the future years will be squelched by Bob's gift of gab.

RICHARD (MOLDOFSKY) MARCH

Immediately upon graduation from Central I attended the Wharton School at Penn and thereafter Penn Law school. Upon graduation from law school in 1965 I joined a Philadelphia law firm which, after a number of name changes, upon my leaving in 1996, was named Galfand, Berger, Lurie, Brigham and March. In the 31 years at the law firm I specialized in defense and coverage litigation on behalf of insurance carriers. In 1996 I went "in-house" with my major client in Bala Cynwyd PA as Senior Vice President and General Counsel, which after acquisitions, mergers and going public is named United America Insurance Group. I left the insurance companies at the end of 2008 to concentrate on providing arbitration and mediation services in insurance related disputes through a company named March Resolution Services, LLC. I am married, and together with my wife we have 4 children who have produced many grandchildren, with production ongoing. My wife and I live in an "over 55" community in Voorhees NJ, with summer enjoyment at the shore in Margate.

Since High School: I have been married three times, gone to college three years, have had more than three businesses, and my incessant humor has enlivened the banal fare of many golf courses. I am retired from owning a chain-link fence company which existed for 32 years. I wanted to go into proctology, but they told me it was no longer a specialty. So, I stayed retired and am living in Pompano Beach, Florida and Atlantic City, New Jersey. Life is beautiful. Thanks for listening, Jack

MARK PAUL

I retired at age sixty four from being an independent Pepperidge Farm Biscuit Dist. I've been married to the same woman (LINDA) for forty years. We have two grand children (LAUREN and JEREMY). MY youngest daughter will be getting married this coming June. I still live in the Phila. area (Bucks County). I spend my time working part-time Monday to Thursday. Therefore I have a three-day weekend every week. I try to play golf at least once a week and spend time at the beach with my wife. Babysitting my grand children is also one of my pleasures. I still follow all of the local sports teams, and sports in general. The best part of my retirement is being healthy enough to enjoy it.

BEN PICKER

I am now a reformed litigator with a national practice as a mediator in business disputes. After decades of working as a commercial litigator, I now help parties find a business solution to their disputes and avoid the litigation option. So long as I continue to have a passion for my mediation work, which includes a fair amount of writing and lecturing, I have no plan to retire. I have an equal passion for the rest of my life which includes my wonderful family (Shelley, my wife of 35 years, and our four children and three grandchildren). Shelley and I enjoy playing golf, traveling and just hanging around. In the it's never too late to start department, I started piano lessons a year ago and thoroughly enjoy the rewards of this latest challenge.

MALCOLM POLIS

I served six months in the Army Reserve. While on the rifle range, I heard of the assassination of President Kennedy. I Graduated from Temple with a degree in accounting. After two years in public accounting, I entered private business. I earned my CPA, got married and had two girls. I started my own business and had seven locations in five states. I sent my daughters to Germantown Academy so that they would have as similar an education as I received from Central. After a successful career I started a second career in a fine arts gallery which I run out of my home. I am a minor celebrity in the art field. I have had the good fortune to travel both in the United States and parts of Europe. My eldest daughter became a dentist, and very recently made my wife and I grandparents. This has been a delight which I never expected. Can anyone believe that it is fifty years since we said good bye to the Crimson and Gold? As i am fond of saying, time flies when you are having a good time and when older even if you are not having a good time.

MICHAEL POPOLOW

SAMUEL SALEN

In 1963, while in Medical School, I married Ferrel Laxx who has been my partner for 45 years. We have 3 children, Abe, an attorney, Beth, a school teacher and Jesse, an IT manager with an MBA degree. Four grandchildren complete our immediate family.

I completed my MD training at Jefferson in 1965. In 1972, I finished a Radiology Residency at Temple and since have lived in Upland, California, a small city east of Los Angeles.

Currently, I continue to practice radiology albeit from home using the Internet and computers.

We are very fortunate that all our children and grandchildren live nearby.

Central provided the foundation which made my goals possible. The fact that it continues to offer these same benefits to current generations of students 50 years later is a tribute to its teaching staff, administration and vision.

MARVIN SAMSON

Marvin Samson is currently the founder/CEO of Samson Medical Technologies, L.L.C., a company specializing in injectable drug delivery systems.

In 1967, Mr. Samson helped to found Elkins-Sinn, Inc., one of the largest generic injectables companies in the U.S., and was its President/CEO for 18 years. Mr. Samson then founded Marsam Pharmaceuticals, Inc. and was President/CEO from 1985 to 1998, building it from scratch to about \$100 million in sales. After establishing Samson Medical Technologies in 1998, he joined SICOR, Inc., a vertically integrated, global specialty pharmaceutical company, as President/CEO. When SICOR, Inc. was acquired by Teva Pharmaceutical Industries Limited in 2004, Mr. Samson was elected Group Vice President of Worldwide Injectables. He recently joined Qualitest Pharmaceuticals as Chairman of the Board.

Central High inspired me to succeed where others failed merely by persistence and entrepreneurial spirit.

HOWARD SANDERS

"Howie," an amazing example of adaptability, has done everything and will attempt anything. He won renown as a "Freedom Fighter" as editor of the "Obelisk." Howie is also the class entrepreneur, capable of turning anything into profit. We are sure that, if he is not a success, he will at least make plenty of money.

MICHAEL SAVA

Mike is a good-looking, six-footer who seems to get along with everybody but his enemies. Mike is well known since he played three years on the Varsity Basketball Team. Some of Mike's exploits are striking matches for the boys that smoke and walking around the lunchroom seeing that everything is in order. Mike's favorite hobby, besides sports, is coin collecting. He is especially noted for taking out girls three feet shorter than he is.

J.V. Baseball; Cadet and Varsity Basketball; Intramural Sports.

MURRAY SCHACHER

Murray, the best fallacy-discoverer in the class, has been the bane of his math teachers, especially Mr. Warshaw. Murray's unusual mathematical talents have been put to constructive use in his role as chairman of the class tutoring committee. "Shaker," as unknowing substitute teachers dub him, plans to follow a career in college math, but will probably waste the rest of his life trying to disprove Einstein's theory of relativity.

Chairman, Tutoring Committee; Associate Editor, Centralizer; Associate Editor, Record Book; Cyclotron Society; French Club; Student Tutors; Debate Society; Astronomy Club; Math Club; Barnwell and Scholastic Honors.

RICHARD F. SCHAEFFER

Rich, the lovable burrhead of the 211 has excelled in all phases of Central's activities. His claim to fame is keeping Dr. Rosenbaum's class laughing with his mundane comments. Rich has pointed his sights towards medicine and will probably be the best in the business.

HOWARD SANDERS

I retired to South Florida over 37 years ago with my wife Dale (Olney, 1960) and our two children. We traveled together, over 15 years, to more than 50 countries, before our kids left for college and their independent journeys. Ten years ago they returned, with their spouses and four grandchildren, to a neighborhood within walking distance of our home. Presently, I golf, cruise, and tease grandchildren. My retirement at age 30 followed a career as a CPA with Price Waterhouse, assistant professor at Temple University, president of a mutual fund, and small-business owner. I credit my Central High foundation more for my success than my Temple BS or Ohio State MBA. This year, we celebrated our 45th Anniversary and my recovery from neck cancer. One silver lining to chemotherapy: It gave me the resolve to hit two Hole-in-Ones in four weeks!

MICHAEL A. SAVAR

Approaching 45th year of marriage to Gail, two married sons, four grandchildren. Living in an over 55 community with two other of our classmates and grads from the 188 to the 225. EUGENE H. SIEGEL

Here I am fifty years later, father of three, grandfather of five, husband of one, living in an "active adult community" and wondering where the time has gone. What keeps me feeling young is that I am still working in my solo family medicine practice, that I swim or go to the gym at least three times a week, and that one of the five grandchildren is always under foot.

After CHS, I continued my education at Villanova University and the Des Moines University College of Osteopathic Medicine. My internship was done in Lancaster, PA and then I opened a family practice in Northeast Philly in 1969. I am currently in my 39th year of practice.

In 1967, I married my wife, Lois, who was a teacher at the time. Before I knew it, we had three children in three years. We raised them in Jenkintown, PA. Now they are grown and all have moved to Mount Laurel, NJ where they are raising their families. So, we followed them to Mt. Laurel three years ago.

I enjoy doing things with Lois, family time, friends, the shore (Margate) and occasional travel. I go to Minyan at least once a week.

Attending CHS and being a member of the 211 was a privilege and a special experience for me.

PETER JOHN SUFFREDINI

I graduated from Monmouth College in Illinois with a B.S. in 1964. I served as a Hospital Corpsman in the US Navy from 1964-68, including a 13-month stint in Viet Nam with the Marines. I married my wife, Joan upon returning from VN and returned to college to obtain my California teacher's credential. I taught chemistry in Oceanside for 32 years. My last year teaching, I was District teacher of the year. My wife and I have 3 sons. Our twins are animal trainers in the movie industry and our elder son is a firefighter/paramedic. We have 7 grandchildren. Since retiring we have traveled to over 30 countries and all over the US. On many of these trips I have gone as an Earthwatch volunteer — an organization that assists scientists with their research in the field. I particularly enjoy bird watching and the projects that involve bird study. My Dad was also a graduate of Central High and I am very proud to have been a graduate of Central High.

I am presently working customer service at the whole food market in Jenkintown. Since i've been a freshman in high school, I've worked continually. My longest tenure in any job was Personnel Director for the department of record (1974-1995).

Compared to people from other countries, I'm blessed. Compared to people from other high schools in Phila. (excluding St. Joe's Prep and LaSalle—similar to Central), I'm blessed. Out of 32 public high schools in Phila., Central won 19 of 20 major scholarships. Have you and I appreciated what we received.

CHARLES WAGNER

I have great appreciation for how Central prepared me for college and beyond and have had the pleasure of continued friendship with several classmates. Emily and I have three children (Ken, Andy and Sharon) and three grandchildren (Jake, Ben and Abby) and are both thinking about retiring some day ñ perhaps soon. I've enjoyed (most of the time) my career in medicine, first practicing gastroenterology and more recently, working in healthcare administration. We enjoy travel, especially to places where French is spoken. Photo: *One effect of marrying a Francophile.*

MYRON WASIUTA

After graduation from Central, I worked for a couple of years but soon realized there was no future there. Feeling patriotic, I enlisted in the Marine Corps, went to boot camp, then to electronic school. I married and started a family. At night I went to college whenever I could. After 4 years, I applied for a commissioning program and attended Penn State to study EE. On graduation, 8 years after enlisting, I was commissioned 2nd LT and went to Vietnam. Years later, after Vietnam, I graduated from the Naval Postgraduate School with a MSEE. My wife and I have 3 sons who are graduates of U MD College Park. We have 9 grand children, the oldest is a girl of 16 years and the youngest a girl only 1 month. We have been married nearly 48 years and continue to be shocked when seeing our image in the mirror. Time flies . . . MW/3/2009

LARRY WEINBERG

One wife. Two daughters. Three grandchildren (two girls and one boy) and one boy on the way.

Having a wonderful time as a ten-year retired educator. Traveling around the world to every place my wife chooses to drag me. Even went to Cuba, with government permission, as a missionary.

Playing in a kid's basketball league (over 50) several times a week to keep me in this great shape. Reading is a favorite hobby. Watching sports on TV, of course. Still love to bore my friends and family about my days at Central on a regular basis.

HOWARD WEISZ

When we graduated from CHS, I was going to be a CPA and a Tax Lawyer. When I got to Penn I did not like law or accounting. So, I spent about 28 years with Scott Paper, starting as an Industrial Engineer, leaving as Director of Transportation and Distribution, worldwide. Since leaving Scott I have established a boutique consulting practice, in Supply Chain Management. My consulting practice has been involved with several drug companies, food companies, and some paper companies. I've worked all over the world, except for Eastern Europe.

My biggest accomplishment, forget my book, is that my daughter, the surgeon, has given my wife, Kathleen, and me a beautiful, gorgeous grand-daughter.

I remember our first reunion and our fifth, but then dropped off the radar screen, so I am looking forward to our 50th, 60th and more.

DAVID WINSTIN

My wife Diane and I (married for 45+ years) relocated to Palm Harbor, FL in 1990; our two children came with us. We are living in a single family home approximately one mile from the Gulf of Mexico and we love the area immensely. My son Abe married and relocated to Green Bay, WI where he is now divorced but helping to raise his 8 year old daughter. My daughter Sheryl lives in Holiday, FL, about five miles from Palm Harbor; she is a beautiful, single, mortgage processor. I have only fond memories of dear old CHS. I received a great education which prepared me for higher learning, a solid career as a computer programmer, and life in general. I am currently retired (due to the economy). The group of men with whom I have been associated all of these years represent the finest group of people that I have ever met; I am very proud to be a member of the 211!

"CENTRAL HIGH"

Horace M. Schell, '07
Francis A. Wade, '07

Music by
John L. Waldman, '07

Let others sing of college days
Their Alma Mater true,
But when we raise our voices
'Tis only, High, for you.
We'll ne'er forget those days gone by
Those glorious days of old,
When oft we sang the praises
Of the Crimson and the Gold.

Chorus

Dear High, dear Central High,
Thy mem'ries never die;
Thy honor we'll cherish
And laud it to the sky.
On ball-field or in life,
In peace or deadly strife,
For thee thy sons will labor,
For thee, oh! dear old High.

And when at last we leave behind
Thy shelt'ring portals wide,
Thy mem'ries still we'll cherish
Whate'er may us betide.
And when we congregate again,
With tuneful voice and strong,
With joyful hearts once more we'll sing
That same old glorious song.—Chorus.
